

solarwaterheating

INTEREST FREE LOANS*

The time is right to go solar!

Take advantage of an interest free loan* to purchase your new solar water heating unit.

Cut hot water bills up to 75%

You could save hundreds of dollars a year by using the sun's free energy for hot water. In fact, it could cut your hot water bill by up to 75%.

Get into solar, interest free*

Getting into solar water heating is now even more attractive, with the new Energy Efficiency and Conservation Authority (EECA) Solar Water Heating Finance Assistance Programme. It offers homeowners and businesses the chance to apply for an interest free loan* to help pay for the purchase and installation of a solar water heating system.

How much can you borrow?

Solar water heating units vary in price, but generally range between \$4,000 and \$7,000. Under the programme, depending on the term you choose, you'll be able to borrow all or most of this amount. However, you may be required to pay part of the cost depending on how long you want to have your loan for and the actual cost of the unit you choose.

* Conditions and credit criteria apply.

Improving energy choices

Are you eligible?

There are some conditions you need to meet.
You must:

- Buy your solar water heater from a Solar Industries Association Accredited Supplier. A list of suppliers can be found at: www.solarsmarter.org.nz
- Purchase a system that costs at least \$2,500
- Purchase a system with a collector area of 2m² or greater
- Purchase a system before 30 June 2005.

Loan funds strictly limited – act now
